

Dear Colleagues,

This is the first in-person Summer School since 2019 when we met in Croatia. It is a moment for members of the international Group Analytic community to gather for the first time since the beginning of the Covid-19 pandemic.

We could not have imagined that we would now also be reaching out to our colleagues in Ukraine and Russia, at this profoundly unsettling time.

This year's Summer School is a time for restorative reflection and reaffirmation of our values as group analysts.

We encourage you to attend the event, which is to be held in Ireland. GASi has provided generous funding for bursaries, which are intended to enable trainee group analysts and people interested in group work, from far and near, to attend. Group analytic organisations may also apply if providing sponsorship for trainees.

For more information, registration, and link to accommodation booking, please go to our website, which will be updated when more information is available.
